Folklore in Motion - Kenneth L. Untiedt 2007

The adventurous spirit of Texans has led to much travel lore, from stories of how ancestors first came to the state to reflections of how technology has affected the customs, language, and stories of life on the go. This Publication of the Texas Folklore Society features articles from beloved storytellers like John O. West, Kenneth W. Davis, and F. E. Abernethy as well as new voices like Janet Simonds. Chapters contain traditional Gone to Texas accounts and articles about people or methods of travel from days gone by. Others are dedicated to trains and cars and the lore associated with two-wheeled machines, machines that fly, and machines that scream across the land at dangerous speeds. The volume concludes with articles that consider how we fuel our machines and ourselves, and the rituals we engage in when were on our way from here to there.

Slow Cooker Meals - Neal Bertrand 2011-06-01

High and Mighty - Keith Bradsher 2004-01-19

SUVs have taken over America's roads. Ad campaigns promote them as safer and "greener" than ordinary cars and easy to handle in bad weather. But very little about the SUV's image is accurate. They poorly protect occupants and inflict horrific damage in crashes, they guzzle gasoline, and they are hard to control. Keith Bradsher has been at the forefront in reporting the calamitous safety and environmental record of SUVs, including the notorious Ford-Firestone rollover controversy. In *High and Mighty*, he traces the checkered history of SUVs, showing how they came to be classified not as passenger cars but as light trucks, which are subject to less strict regulations on safety, gas mileage, and air pollution. He makes a powerful case that these vehicles are even worse than we suspect--for their occupants, for other motorists, for pedestrians and for the planet itself. In the tradition of *Unsafe at Any Speed* and *Fast Food Nation*, Bradsher's book is a damning exposé of an industry that puts us all at risk, whether we recognize it or not.

Love Lifts the Heart - Nancy Crapser Hunt 2009-12-15

This book, I have written, has helped to release all the tension I had with the obstacles I met along with the raising of this family. With the farm life and the large family, including a son with birth defects and Down's syndrome, life was strenuous. Years of struggling to keep the family well and happy. With the help of good doctors and surgeons, in Bobby's case, we have seen that it can be done. I was always trusting God in each incidence. It is my hope that this book will prove to be an inspiration to any and all who have the privilege of reading it.
