[Preparing to Teach Social Studies for Social Justice \(Becoming a Renegade\)](#) - Ruchi Agarwal-Rangnath 2016

This practical book shows how veteran, justice-oriented social studies teachers are responding to the Common Core State Standards, focusing on how they build curriculum, support students' literacy skills, and prepare students to think and act critically within and beyond the classroom. In order to provide direct classroom-to-classroom insights, the authors draw on letters written by veteran teachers addressed to new teachers entering the field. The first section of the book introduces the three approaches teachers can take for teaching for social justice within the constraints of the Common Core State Standards (embracing, reframing, or resisting the standards). The second section analyzes specific approaches to teaching the Common Core, using teacher narratives to illustrate key processes. The final section demonstrates how teachers develop, support, and sustain their

identities as justice-oriented educators in standards-driven classrooms. Each chapter includes exemplary lesson plans drawn from diverse grades and classrooms, and offers concrete recommendations to guide practice. Book Features: Offers advice from experienced educators who have learned to successfully navigate the constraints of high-stakes testing and standards-based mandates. Shares and analyzes curricular and pedagogical approaches to teaching the Common Core, including lesson plans teachers can use in their own classrooms. Examines a range of philosophical and political stances that teachers might take as they navigate the unique demands of teaching for social justice in their own context. "This inspiring book invites us into conversations that cannot help but to make our teaching more collective, impactful, and profound." —Kevin Kumashiro, University of San Francisco "This is a must-read book for practicing and aspiring educators interested in learning how to teach justice-oriented, critical social studies." —Brian D. Schultz, Northeastern Illinois University "At a time of increasing pressure on teachers, this book provides practical approaches from teachers, for teachers to teach within the confines of the Common Core without compromising rigor, integrity, or social justice." —Tyrone C. Howard, director, UCLA Black Male Institute, UCLA

The Negro Motorist Green Book - Victor H. Green

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

*Traditions & Encounters* - Jerry H. Bentley 2020  
"This is History Book. It explored the grand

scheme of world history as a product of real-life human beings pursuing their individual and collective interests. It also offered a global perspective on the past by focusing on both the distinctive characteristics of individual societies and the connections that have linked the fortunes of different societies. It has combined a clear chronological framework with the twin themes of traditions and encounters, which help to make the unwieldy story of world history both more manageable and more engaging. From the beginning, Traditions & Encounters offered an inclusive vision of the global past—one that is meaningful and appropriate for the interdependent world of contemporary times"--

**Guns, Germs, and Steel: The Fates of Human Societies (20th Anniversary Edition)**

- Jared Diamond 2017-03-07

"Fascinating.... Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, New York Review of Books) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and ventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, Guns, Germs, and Steel chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth

club of California's Gold Medal.
